7:45—8:00 p.m. – Short Business Meeting

7:00—7:45 p.m. – Buffet Dinner (Reservations Required)

8:00—9:00 p.m. – Featured Speaker (Free to public)

Leonard Krieger CanalWay Center

4524 East 49th Street (turn onto Whittlesey Way to reach Center), Cuyahoga Heights (216-206-1000)

Speakers: Gene Zajac & Kelly Jons

Shaker Heights High School

“Striking Sparks”

Gene Zajac and Kelly Jons have built their own award-winning folded refractor and reflector telescopes. Helping high school students build telescopes for science projects, senior projects, or just because they wanted to explore the sky has added a wonderful dimension to this hobby. Gene and Kelly will describe the interesting and rewarding process of making both types of ‘scopes, and will include pictures of students hard at work. Come and look through their two-thirds scale model of a William Herschel reflector!

High School Teachers interested in bringing two students, as our guests, please contact Bob Sledz, President, at 440-333-7827 or sledzbob@yahoo.com, if possible two weeks or more prior to scheduled meeting date.
